

# VOLVO S60

**Rediscover the thrill** of driving with the new Volvo S60, the powerful, athletic and dramatic sedan designed to make every journey enjoyable – from the briefest of commutes to the most epic of road trips.

To Volvo Cars, building a car that's great to drive means balancing dynamism with comfort. It has to feel responsive, and yet it must maintain its poise at all times. And that's exactly what we have achieved with the S60.

What's more, it does so with a focus on refinement throughout. The cabin is fashioned to smooth away the miles. Scandinavian design and Swedish craftsmanship combine to create a cabin focused on putting you in control, made from beautiful materials. Technology that's so intuitive it makes every journey easier. And an exterior that will turn heads.

Confident and elegant, the S60 is built to inspire every journey. Feel the connection.

## DESIGNED FOR DRIVING.

**Confident, athletic and elegant**, the S60 is the essence of good Scandinavian design. A dynamic sedan, one that projects confidence without shouting.

Crisp, sharp details enhance and complement the car's inherent strength and its sleek silhouette is an invitation to get in and drive. It's a drive that will inspire and excite you, one where effortless performance, an advanced chassis and intuitive technology combine to create a car that celebrates the joy of the road through the quality of its design.

From inside to outside, the S60 is a sedan that will be a delight to the senses, whatever the driving situation.

The **deeply-sculpted** flanks make the S60 instantly recognisable and define the car's athletic character. At night, the distinctive LED tail lights emphasise the strong shoulder line.

A tailored dashboard with contrasting stitching creates a luxurious, sophisticated look.

The distinctive air vents have controls with a metal finish and a diamond-pattern on the knob. Metal Mesh Aluminium inlays on the dashboard create a technical, contemporary look that complements the driver-focused cabin.

The Metal Mesh Aluminium decor is a modern and luxurious design touch, perfectly complementing the stainless steel speaker panels of the Bowers & Wilkins audio system.

## MADE FOR DRIVING.

**The S60 is** a car that will inspire you to drive. A car with a dynamic character. One that will heighten your senses and bring enjoyment to your driving. Fluent and perfectly balanced, it's capable of delivering both refined, long-distance comfort and an exciting drive.

The chassis in the S60 combines double wishbone front suspension and a unique integrally-linked rear axle. It means that every input you make is matched with a precise and sharp reaction, while still ensuring a comfortable ride. R-Design standard Sport chassis increases stability and quickens responses even further by lowering the ride height and adding stiffer springs and dampers.

Active chassis technology allows you to customise the way the S60 rides and handles, and the three Adaptive Drive Modes let you tailor your driving experience further by altering the engine, gearbox, accelerator and steering responses. Or you can create your own bespoke set-up with Individual mode. However you configure it, the S60 is the perfect partner, whatever the journey.

The advanced engineering in the S60 delivers pure, dynamic driving pleasure. With double-wishbone front suspension similar to that found in sports cars, the S60 provides you with more precision and control more of the time.

# CITY SAFETY TECHNOLOGY. YOUR PRO-ACTIVE PARTNER ON THE ROAD.

Our advanced **pro-active** safety technology helps you feel confident and in control. At the heart of this technology is City Safety. By helping you to keep a lookout and brake or steer away for you if necessary, it makes driving more enjoyable while helping to prevent accidents.

City Safety can identify other vehicles, pedestrians, cyclists and large animals ahead of you, even at night. It warns you if needed and can brake automatically to help avoid a collision or reduce impact. Our advanced Oncoming Mitigation by Braking technology – a Volvo Cars safety world first – can detect if

there's another vehicle driving towards you and brakes automatically to mitigate the impact.

Your Volvo can also support if you're forced into a rapid evasive action at speeds between 50 and 100km/h. As you begin to steer away, City Safety can help you do it as effectively and safely as possible by braking the inner wheels individually and reinforcing your steering input.

City Safety is simply your perfect partner: pro-active when it's needed, and staying discreet in the background the rest of the time.

**Oncoming Mitigation by Braking**  
A Volvo Cars safety world first, this innovation can detect vehicles heading towards you on the wrong side of the road. If a collision can't be avoided, it can brake your car automatically and tighten the optional prepared front safety belts in order to help reduce the effect of a collision.

**Oncoming Lane Mitigation**  
If you drift across the lane markings and into the path of an oncoming vehicle, your car can alert you and gently steer you back onto the correct path. This system does this using automatic steering assistance, helping you to avoid collisions with oncoming vehicles.

**Lane Keeping Aid**  
The Lane Keeping Aid can gently help steer your car back into its lane if it senses you are about to inadvertently cross into a different lane. If this is not enough or if you keep steering across the lane markings, you'll be alerted with vibrations in the steering wheel.

**Run-off road Mitigation**  
Stay safely on the road with this Volvo Cars safety innovation. If Run-off road Mitigation detects you're about to leave the road unintentionally, it can provide steering input and, if necessary, brake support to help guide you back on track.

## YOUR WELL-CONNECTED GUIDE.

**Intuitive technology** in the S60 helps get you where you need to go quickly and easily. The clear graphics of Sensus Navigation are easy to read, while the portrait format of the centre display means maps scroll less and are able to show more of the road that you are travelling on.

Our innovations also save you time by helping you to find what you're looking for, with built-in apps such as Google Search and

Yelp. Find a petrol station, a restaurant or a hotel and then use Sensus Navigation to take you there.

The S60 keeps you connecting your phone to the car is as easy as plugging it in – Apple CarPlay™ or Android Auto™ will do the rest, turning the centre display into an extension of your phone's screen.

**Voice control**  
Volvo Cars' latest voice recognition technology understands natural speech, so you can simply talk naturally to your car – there's no need to memorise specific phrases to operate climate control, navigation, media or telephone features.

**Sensus Navigation**  
With its clear mapping, seamless connectivity and ease of use, Sensus Navigation is your companion on every drive, taking care of the journey and leaving you to enjoy every moment.

**Smartphone integration**  
Apple CarPlay™ or Android Auto™ allows you to simply and easily connect your smartphone to your car. All you need to do is plug it in and the centre display will show you the same type of interface that you'll recognise from your phone's home screen.

**T6 AWD | R-Design**  
725 Fusion Red metallic | 20" 5-triple spoke  
Matt Black Diamond Cut alloy wheels

**Volvo S60 Momentum**  
Dynamic contemporary style with  
a premium appearance.

**Volvo S60 R-Design**  
Sporty styling and precise control,  
for a sedan designed to perform.

**Volvo S60 Inscription**  
Contemporary luxury, with beautiful  
materials and expert craftsmanship.

## CREATE THE SWEDISH DYNAMIC SEDAN OF YOUR CHOICE.

Our approach in everything we do is to always put people first. This also includes allowing you the freedom to create a Volvo that matches your style and fits perfectly into your life.

To ensure you get your new Volvo S60 exactly as personal as you want it, you have several different design expressions to

choose from – each with a distinctive style and character: the sporty S60 R-Design, the luxurious S60 inscription and the premium S60 Momentum.

Whatever you prefer, you can rest assure there's a Volvo S60 for you. Read on, and see what your new S60 will look like.

EXTERIOR COLOURS.

Our wide range of exterior colours allows you to create the Volvo S60 that best reflects your style and preferences.

Available in different variations, each colour imbues your Volvo estate with a sense of dynamic elegance.

## INTERIORS.

The interior of the Volvo S60 is crafted with you at the centre of attention. Every detail, every line, every shape is testimony to our designers' pursuit to create a space in which you feel relaxed and in complete control. Choose between two seat variants: the lavish Comfort seats or the sportier Contour seats. The interior is available in many colour, upholstery and decor trim combinations – including Blond or Charcoal headlining – to suit your preferences.

Fuel tank, litres:	60			60		
Environmental classification:	Euro 6d-TEMP			Euro 6d-TEMP		
Tyre class*:	A	B	C	A	B	C
WLTP***, fuel consumption, litres/100 km, mixed cycle, auto:	7.1			7.4		
WLTP***, CO <sub>2</sub> g/km, auto:	161			168		

\* The tyre class is based on the EU tyre labelling for fuel efficiency ratings based on the tyre's rolling resistance.

\*\*\*WLTP (Worldwide Harmonized Light Vehicles Test Procedure) has replaced NEDC as from September 1, 2018. WLTP is a much more realistic test procedure for fuel consumption and CO<sub>2</sub> emissions. Due to more realistic test conditions and by taking car specific configurations into account, WLTP will show higher figures than NEDC and better reflect everyday normal driving.
