**BMW G 310 R.**

**MAKE LIFE A RIDE.**

# OVERVIEW.

Low weight, powerful dynamics – the BMW G 310 R is built for the cities of the world and embodies the pure roadster spirit. The light and fuel-efficient single-cylinder engine makes the motorcycle extremely agile and particularly easy to control thanks to its innovative engine concept. With a very long swinging arm for the wheelbase, it provides maximum driving stability. This allows the G 310 R to move swiftly and agilely through city traffic and also confidently and powerfully on country roads. A real BMW Motorrad but with reduced cylinder capacity. Thanks to the particularly low fuel consumption, the impeccable suspension and a relaxed, comfortable sitting position, even long stretches are absolute fun. The rigid tubular steel frame, upside-down fork and long swinging arm ensure high driving stability, precise steering and good handling at all times. This dynamic and agile character is also evident at first glance from the expressive design of the BMW G 310 R, which impressively emphasises its membership of the BMW roadster family. The sporty lamp mask with striking headlight, eye-catching fuel tank covers and typical roadster proportions with beefy front and dynamic rear make the BMW G 310 R an eye-catcher on every road. High-quality details such as the gold-anodised upside-down fork, brake callipers and elaborate aluminium swinging arm highlight the motorcycle's premium appearance.

***RIDER EQUIPMENT.***

- 1 VentureShell suit**  
Designed for warm, summer temperatures, the VentureShell suit features everything you could want in an enduro touring suit, from the breathable, water-resistant upper to double-thickness material in vulnerable areas and a variety of ventilation zips. A genuine all-rounder on and off-road.
- 2 AirFlow glove**  
These gloves are designed to complement the AirFlow suit, but are also perfect for any summer excursion. They combine thin, abrasion-resistant materials such as goatskin leather and AirTex that deliver both grip and protection. Knuckle protectors and impact-absorbing foam protect the back of the hand, while holes in the insides of the fingers ensure optimum ventilation. Your next summer tour won't be complete without them!
- 3 ALLROUND BOOTS**  
The name says it all. With this rugged touring boot, new riders can explore far-flung places all year round. It offers maximum protection against the wind and rain thanks to the breathable GORE-TEX® membrane and a robust material blend of cowhide leather and Cordura.
