

TRK 502

Purpose driven improvements are the name of the game. The latest generation of the TRK502 has been significantly improved thanks to the experience shared by riders world wide. Using feedback gathered across more than 70 countries worth of climate and terrain, the Benelli Team has tuned the TRK502 and TRK502X into icons of the adventure motorcycle. *Adventure calls, where will yours lead?*

Double Up

The double-threaded pillion seat offers your passenger an equally exquisite ride. Improved cushioning leather with hidden threading offer the ultimate in all-day comfort.

Superior Seat Craftsmanship

Enjoy improved comfort, ergonomics, and aesthetics with durable, hidden, double-threaded sewing.

Contoured Lower Fuel Tank Plate

Revised lower cover featuring a new hexagonal pattern for enhanced grip.

Eye Your Competition

The view of disappearing vehicles has never been so clear as those featured receding in the 502's stylishly redesigned mirrors.

Superior Hand Protection

All-new hand guards feature cast aluminum bars, keeping your grip secure, no matter how hard you ride.

On Guard

The muscular engine guards ensure the awesome parallel twin remains in pristine condition.

Max Utility at Every Turn

The new cast aluminum rear box bracket eliminates all limits and puts endless tours within your reach.

Revised Swingarm

Feel and control have been further enhanced thanks to a redesigned swingarm made with carbon dioxide welding.

Preload-Adjustable Rear Suspension

Adjustable, centrally mounted shock absorber provides total control no matter the terrain.

Elegant Trellis Chassis

The redesigned steel trellis frame marries form and function, resulting in maximum strength and minimum weight. The gorgeous finish is achieved with a tasteful blend of matte black electrophoresis and powder coating.

Engine Facelift

The new engine's blacked out appearance has been tastefully styled by the Benelli Design Team. Enhanced aesthetics, coupled with excellent performance, all crowned with the Benelli logo.
