

BAJAJ QUTE

A GASOLINE POWERED FOUR-WHEELED VEHICLE L7E

BAJAJ AUTO - WORLD LEADER IN PRODUCTION OF 3 AND 4-WHEELED VEHICLES

Bajaj Intracity products are sold in 25 countries around the world. Every day nearly 58 million people use BAJAJ AUTO vehicles. Years of experience and modern technology have made it possible to create a four-wheeler in accordance with the customers' expectations - cheap to buy, easy to use and, above all, reliable. This is QUTE - an internal combustion vehicle, four-wheeled, L7E category, which is entering the European market. QUTE is built in modern fully automated and robotized production plants, where the entire production process is carried out by robots and supervised by a team of the best and most experienced engineers. Before Qute went into mass production, it underwent solid road tests in various climate conditions: from desert wilderness to Himalayan glaciers. In total, Qute covered a distance of 3.2 million kilometers of tests. BAJAJ Qute as a vehicle is a source of income for thousands of drivers, fleet owners, mechanics and sellers.

POWERED BY MODERN DTS-i TECHNOLOGY

DTS-i ENGINE

The Digital Twin and Triple Spark Ignition system is the patented BAJAJ AUTO technology that ensures optimal combustion of the air-fuel mixture, which leads to better performance, higher efficiency and lower emissions.

BETTER PERFORMANCE

Although Qute has a small size, it can handle with traffic without any problems. Having a power of 13.46 HP and a torque of 19.6 Nm, Qute can surprise you with its ability to overcome elevations and carry small loads.

LOW EXHAUST EMISSION

Qute is also environment friendly. It generates 40% less of CO₂ than most small urban cars.

HIGH EFFICIENCY

Qute is powered by a modern, 4-valve DTS-i petrol engine, which, combined with the low weight of the vehicle, makes Qute also very economical. Average fuel consumption is 3.6 L / 100 km * (according to the manufacturer).

SPACE AND EVEN MORE SPACE

Qute has a lot of luggage space. Exactly 191 liters. Compartments are located over the entire vehicle: under the front bonnet, in the dashboard, under the rear seat and in the vehicle rear part. Additionally, if you fold down back seats, you will receive a solid 850 liters of luggage space. In addition, there are also roof rails to carry extra luggage. No matter how you consider it, Qute is intelligent, practical and universal. Solid, cheap in usage and trouble-free quadricycle, always brings you wherever you want.

TURNING RADIUS 3,5 M

OPTIMAL SIZE

The weight of just 399 kg and compact dimensions make it easy to park and find yourself in the city.

EASY TO MANEUVER

With a turning radius of just 3.5 m, Qute can be easily maneuvered in dense traffic.

COMFORT AND ERGONOMICS

Qute has been designed with ergonomics for both driver and passengers in mind. Strong suspension and comfortable seats provide comfort during everyday commuting.

YOU
DRIVE
WITH CAT.

B1

SMART
DELIVERY
